Fog, Monsters and Death

by MiaQc

Summary

A short fanfic with a tragic ending. Mio searches for her twin sister in thick fog while monsters lurk around.

- A translation of Brouillard, Monstres et Mort by MiaQc

In the thick fog with monsters lurking around, Mio slowly moves forward, holding her lantern. Her eyes constantly dart from left to right and right to left. She must quickly find Mayu and leave this cursed place.

Suddenly Mio sees the monsters' shadows devouring something. Praying that what they're eating isn't her twin sister, she approaches them and holds out her lantern. Seeing Mayu's severed head and her bloodied torso, Mio screams. The monsters turn toward her and Mio knows her time has come. The monsters pounce on her, their teeth biting into her flesh and she loses consciousness. Mio will never wake up again.
